Research Interests

Broadly, I am interested in the analysis, verification, and testing of concurrent and distributed systems. My doctoral research focused on applying combinatorial techniques to systematic and random testing of distributed systems. More recently, I have been working on programming models and testing techniques for distributed stream processing.

Education

09/2012–05/2019

Max Planck Institute for Software Systems (MPI-SWS)

Doctor of Engineering (Dr.-Ing.) degree by Technische Universität Kaiserslautern
Dissertation: *Combinatorial Constructions for Effective Testing*
Grade: summa cum laude

10/2009–10/2011

Department of Mathematics, University of Zagreb

Enrolled in a doctoral program in mathematics

07/2004–10/2009

Department of Mathematics, University of Zagreb

Dipl. Ing. (4-year degree) in Mathematics (profile: Computer Science)
GPA: 4.7 / 5.0

Work Experience

10/2018–*present*

University of Pennsylvania

Postdoctoral researcher, working with Rajeev Alur

09/2012–10/2018

Max Planck Institute for Software Systems (MPI-SWS)

Doctoral researcher, advised by Rupak Majumdar

05/2016–08/2016

Microsoft Corp., Redmond, Washington

Research intern working on a testing and fault-injection framework for concurrent software. Technologies: C#, .NET Compiler Platform (“Roslyn”)

04/2010–09/2012

IN2 d.o.o., Zagreb, Croatia

Software engineer developing financial software. Technologies: Oracle DB (SQL, PL/SQL), Java (Spring Framework), and Adobe Flex

Teaching Experience

01/2019–05/2019

University of Pennsylvania

Occasional lectures and a student project for CIS 540: Principles of Embedded Computation (Spring 2019)

10/2016–02/2017

Max Planck Institute for Software Systems (MPI-SWS)

Teaching assistant: Program Analysis (Winter 2016/2017)

04/2014–07/2014

Max Planck Institute for Software Systems (MPI-SWS)

Teaching assistant: Verification of Reactive Systems (Summer 2014)

03/2008–09/2009

Department of Mathematics, University of Zagreb

Student assistant: Set Theory (Summer 2008), Introduction to Parallel Computing (Winter 2008), Application of Parallel Computers (Summer 2009).

09/2002–06/2005

Informatics Club NET, Ivanić-Grad

Tutored high school students for programming competitions

Professional Service

Artifact evaluation committee: ISSTA 2015, ECOOP 2018, CAV 2019

Conference reviews: CAV 2013, CSL 2013, FMCAD 2013, EMSOFT 2014, FMCAD 2014, LICS 2014, CADE 2015, VMCAI 2015, POPL 2016, TACAS 2016, VMCAI 2017, ICALP 2018

Journal reviews: ACM Transactions on Computational Logic, Acta Informatica

Technical Skills

Operating systems: GNU/Linux, Mac OS X, Windows

Programming languages: C/C++, C#, Java, Python, PL/SQL, ActionScript (Flex)

Databases: Oracle DB

Language Skills

Croatian (native), English (fluent), German (basic)
